At the heart of Franklin Barbecue's success is a set of guiding principles that can be distilled into a comprehensive meat smoking manifesto:

1. Quality of Ingredients

- **Select the Best Meat:** Franklin insists on sourcing high-quality meat, emphasizing USDA Prime or Choice cuts, especially for brisket. The quality of the meat is fundamental to achieving exceptional flavor and texture.
- **Freshness Matters:** Using fresh, well-marbled meat ensures tenderness and flavor development during smoking.

2. Simplicity and Respect for Tradition

- **Minimal Intervention:** Franklin's approach favors simplicity—using only salt, pepper, and occasionally other spices—allowing the natural flavors of the meat to shine.
- **Respect for Classic Techniques:** The methods are rooted in traditional Texas barbecue, emphasizing low and slow cooking over wood fires.

3. Wood Selection and Management

- **Choosing the Right Wood:** Franklin primarily uses post oak, a hardwood known for its steady heat and subtle smoky flavor.
- **Consistent Fire Management:** Maintaining a steady, controlled fire is crucial. Franklin advocates for patience, monitoring the fire closely, and adjusting airflow to regulate temperature.

4. Low and Slow Cooking

- **Temperature Control:** Smoking at around 225°F (107°C) allows collagen to break down,

resulting in tender, flavorful meat.

- Time Investment: Franklin's meats often cook for 10-14 hours, emphasizing patience and precision.

5. Technique and Attention to Detail

- Preparation: Proper trimming of the meat to remove excess fat and silver skin ensures even cooking.

- Seasoning: A simple dry rub enhances flavor without overpowering the meat.

- Resting Period: Allowing meat to rest post-smoking is vital for juices to redistribute, ensuring moistness.

The Franklin Method: Step-by-Step Meat Smoking Process

Understanding Franklin's method offers insight into their mastery and can serve as a guide for home pitmasters aspiring to elevate their barbecue game.

Step 1: Meat Preparation

- Trimming: Remove excess fat, silver skin, and connective tissue to promote even cooking.

- Seasoning: Apply a balanced dry rub of salt, black pepper, and optional spices. Franklin prefers a simple seasoning to highlight the meat's natural flavor.

Step 2: Fire and Smoke Setup

- Wood Selection: Use seasoned post oak wood chunks or splits.

- Fire Management: Build a small, steady fire, maintaining a consistent temperature. Franklin often uses a dedicated offset smoker or a custom-built smoker.

Step 3: Smoking Process

- Placement: Position the meat on the smoker grates, away from direct flames.

- Temperature Monitoring: Use reliable thermometers to keep the smoker at 225°F.

- Time Management: Smoke the meat for 10-14 hours, adjusting airflow and adding wood as needed.

Step 4: The Stall and How to Handle It

- Understanding the Stall: During smoking, meat may plateau at a specific internal temperature (~150°F). Franklin emphasizes patience during this phase.
- Wrapping or Not: Franklin sometimes wraps meat in butcher paper to retain moisture and push through the stall, but the decision depends on desired bark and texture.

Step 5: Resting and Serving

- Rest Period: Wrap the smoked meat in foil or butcher paper and let it rest for at least 30 minutes.
- Slicing: Slice against the grain for maximum tenderness.
