Procedural Manual for Foreign Investment in Nepal: An In-Depth Review

Nepal, a landlocked country nestled in the Himalayas, has long been admired for its natural beauty, cultural diversity, and strategic location. In recent years, the government of Nepal has taken significant steps to attract foreign direct investment (FDI) to bolster economic growth, infrastructure development, and employment generation. To facilitate this, the country has established a comprehensive Procedural Manual for Foreign Investment in Nepal, aimed at providing clarity, transparency, and ease of doing business for foreign investors. This investigative review explores the intricacies of this manual, its legal framework, procedural steps, and the challenges faced by investors in navigating the process.

Introduction to Foreign Investment Policy in Nepal

The Nepalese government recognizes foreign investment as a vital component for sustainable development. Its policies are guided by the Foreign Investment and Technology Transfer Act, 2019 (FITTA), which replaced earlier regulations to streamline procedures and expand sectors open to foreign investors.

Key Goals of the Policy:

- Attract diverse sectors of investment, including tourism, hydropower, manufacturing, agriculture, and technology.
- Simplify legal and procedural frameworks.
- Promote foreign investment through incentives and guarantees.
- Ensure compliance with environmental and social standards.

The procedural manual acts as an operational guideline that consolidates legal provisions, application procedures, approval mechanisms, and post-investment obligations.

Legal and Institutional Framework

Understanding the legal landscape is essential for foreign investors. The core laws and institutions involved include:

- Foreign Investment and Technology Transfer Act, 2019 (FITTA): The primary legal instrument governing foreign investments.
- Company Act, 2063 (2006): Regulates company formation and operations.
- Investment Board Nepal (IBN): The apex body responsible for investment approvals, especially for large-scale projects.
- Department of Industry (DoI): Oversees industrial licensing and registration.
- Nepal Rastra Bank: Manages foreign exchange and repatriation of profits.

- Ministries and Regulatory Bodies: Various sector-specific regulators.

The manual synthesizes these legal provisions into a coherent procedural pathway, emphasizing transparency and efficiency.

Pre-Investment Considerations and Sectoral Policies

Before initiating the investment process, investors must conduct due diligence regarding sector-specific policies, restrictions, and incentives:

- Open Sectors: Manufacturing, tourism, IT, finance, and hydropower have relatively liberal policies.
- Restricted Sectors: Certain sectors like defense, security, and postal services have limitations.
- Incentives: Tax holidays, customs duty exemptions, land lease benefits, and repatriation facilities.

A preliminary review of the sectoral manual helps investors identify eligibility, restrictions, and benefits.
