Sample Questions and Answers from the August 16, 2007 US History Regents

Multiple-Choice Question Example

Question: Which of the following was a major consequence of the Louisiana Purchase of 1803?

- The start of the Mexican-American War
- The doubling of the size of the United States

- The abolition of slavery in the North
- The end of the War of 1812

Answer and Explanation:

Answer: b) The doubling of the size of the United States

The Louisiana Purchase in 1803 was a significant land acquisition from France that more than doubled the size of the United States at the time. It paved the way for westward expansion and was instrumental in shaping the nation's growth. The purchase did not directly lead to the Mexican-American War (which occurred later in 1846-1848), nor did it abolish slavery or relate directly to the War of 1812.

Document-Based Question (DBQ) Example

Question: Using the provided documents, analyze the causes of the Civil War and develop an argument supporting the primary cause of the conflict.

Sample Response:

Based on the documents, it is evident that the primary cause of the Civil War was the issue of slavery. Document 1 highlights the economic differences between the North and South, with the South relying heavily on slave labor for its plantation economy. Document 2 shows the increasing tensions over the expansion of slavery into new territories. Document 3 depicts the political conflicts, such as the Missouri Compromise and the Kansas-Nebraska Act, which attempted to address the issue but ultimately heightened tensions. The consistent theme across these documents indicates that slavery was the central issue leading to secession and conflict, making it the primary cause of the Civil War.
